

Rob King

I love the bike by the way. I raced it in the team time trial Saturday, it's fast and stiff, good power transfer, very aerodynamic. I was driving around at the beach with it on top of my car and every cyclist I drove by was staring at the bike waving to me.

I love the bike by the way. I raced it in the team time trial Saturday, it's fast and stiff, good power transfer, very aerodynamic. I was driving around at the beach with it on top of my car and every cyclist I drove by was staring at the bike waving to me. It really stands out with the white saddle and white tape on the bars. Very cool.
