

Bob Bigwood

The 300 showed up at my door yesterday, and I took it out for its maiden voyage tonight. What a sprint machine! It feels lighter and stiffer than better than my trek when I stomp on it, and It doesn't feel like the front end is going to break off . The position feels great too.

The 300 showed up at my door yesterday, and I took it out for its maiden voyage tonight. What a sprint machine! It feels lighter and stiffer than better than my trek when I stomp on it, and It doesn't feel like the front end is going to break off . The position feels great too. Thanks for taking the time to fit my while I was down there. I think I'm really going to like this thing. The bike got several compliments from other guys in the pack I think it looks great with my carbone pro's on it. I'm not sure how long they're going to like me having it though…
<http://list.obra.org/posts/obra/show/35959> This was my third win this month at this series, and this time it was by the widest margin-----Bob Bigwood, Portland, Oregon
