

## Art Garcia

Wow! What a ride! I took the new Vitesse 300 on an inaugural 80 mile ride at a near 20 mph average on one of our flatter training routes with only 2,500 feet of vertical. What a nice, smooth, ride! My compliments! Thanks to the sales team for their customer service.

Wow! What a ride! I took the new Vitesse 300 on an inaugural 80 mile ride at a near 20 mph average on one of our flatter training routes with only 2,500 feet of vertical. What a nice, smooth, ride! My compliments! Thanks to the sales team for their customer service. Thanks also to your build team. My local bike shop said that it took them all of 8 minutes to put everything together and that it seemed like someone really test rode the build; it was so dialed-in. The only thing that I saw in the build that I did not order, was the gorgeous white tape (won't stay white for long!) that came with. I asked for black, and aside from the compliments, I'll just have to wait to replace it when it gets nasty. I'm so glad that your founders, Homayoon and Daniel decided to take this adventure with VeloVie's offerings in the marketplace, and I wanted to thank them as well... I'm the benefactor that's for sure. Art GarciaSeattle, WA
