

Bob Grimm

I received my V 300 yesterday, and it looks great. I got to ride it and it's so much stiffer than my 4 year old Giant Carbon TCR. The technology has improved when building these carbon bikes and Velo vie is right on when it comes to performance and weight savings.

I received my V 300 yesterday, and it looks great. I got to ride it and it's so much stiffer than my 4 year old Giant Carbon TCR. The technology has improved when building these carbon bikes and Velo vie is right on when it comes to performance and weight savings. My Velovie 300 58cm bike with Zipp 404 tubulars weighs 15.34 pounds, and that's lighter than my old Giant. Thanks a lot, and I'll be talking with lots of racers here in Ohio about your outstanding bike. I hope I can send you some future customers. Bob Grimm Wadsworth, Ohio
